## Add a touch of *Africa* to your home or lodge

From her studio at the foot of Table Mountain in Cape Town, Joanna Orr of Head On Design creates wall-mounted African animal sculptures, all of which exude an Afro-chic elegance. A graceful take on traditional hunting trophies, they serve to celebrate our wildlife, but without the bloodshed. Each head is carefully designed and crafted from specially cut facets of natural, sustainable Bamboo & Birch ply, or a beautiful recycled material called Xanita board. New products include table decor, bookshelves, and smaller ornamental items perfect as gifts/curios. Most sculptures come flat-packed with instructions.

Needing to preserve our natural heritage, Head On Design donates yearly to recognized conservation organisations such as EWT, Blood Lions and the Animal Rehabilitation Centre at Aquila Private Game Reserve.

Animals currently available are the kudu, elephant, buffalo, rhino, lion, Oryx, giraffe and nguni. Commissions for large and small installations are welcome.
